Application Notes

You've definitely heard this one before! Inspired by the success of the 10" ALNICO (Legend 102), this version gives a 12" alternative. The ALNICO is famous for its warm Bluesy tone. Eminence is producing the paper bobbin model (20W) in an authentic blue frame. The Kapton bobbin model (35W) is available in the standard black frame - it is ideal as a replacement or for extending the power handling capabilities in vintage boxes. Expect a much thinner tone and a lot less body from these vintage reissues. These speakers were designed to recreate the 'Jensen' tone from years ago. They make great replacements in lower power vintage amplifiers.

When playing a 4X12 and a 2X12 with the Vibroverb and the Top Hat, the Vibroverb is the best combination. The speaker breaks up quickly and has a very nice high end. The paper bobbin version lends a slightly warmer tone.
